MIRA PACK

HISTORY

MIRA Packaging, founded in 2013, is a leading supplier of paper based products in Bahrain and the GCC.

The company traces its roots back to 2013 when it started as a trading business. Due to the vast growth experienced in a very short time, a decision was made to undergo upstream expansion by developing a manufacturing facility for paper cups.

At present, our portfolio includes hot and cold cups, containers, plastic cups, lids, aluminum products and hygiene products.

MIRA provides packaging solutions to almost all sectors in the region. At present, we supply our products to hotels, hospitals, airlines, food chains, cafeterias and restaurants.

In accordance with international standards, our products are warehoused in safe and hygienic conditions.

DESIGN YOUR OWN CUP

“How it works?”

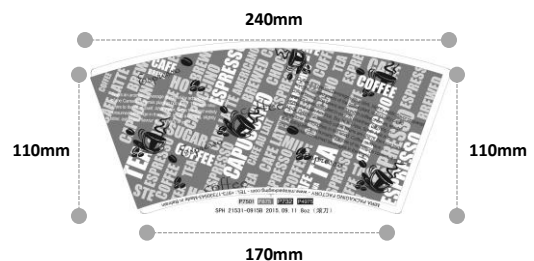

Step 1: Design submission

You can submit your design either by emailing it to info@mirapackaging.com or by using the cup builder on our website www.mirapackaging.com

Step 2: Selection of cup size

You tell us the size you want. When we receive the design we will render it and send you a copy of the artwork for approval.

Step 3: Production

Once you are happy with the design, we will make the printing plates and commence production.

Note: -

- There is a minimum order quantity in place for all of our cups. We will inform you of the minimum quantities when you submit your design.
- There is a plate making charge which will be attached to your first invoice. This charge applies to each design.
- We promise a turnaround time of 48 hours once the plates have been made.
